

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

The University of Chicago Press
Chicago, Illinois, U. S. A.

TABLE OF CONTENTS

	PAGE
Hybridization and germ cells in <i>Oenothera</i> mutants.	
Contributions from the Hull Botanical Laboratory. XCIII - - - - -	<i>Reginald Ruggles Gates</i> 1
Morphological and anatomical studies of the vegetative organs of <i>Rhexia</i> (with plates I and II) - - - - -	<i>Theo. Holm</i> 22
The sporangium of the Ophioglossales. Contributions from the Hull Botanical Laboratory. XCIV (with plates III and IV) - - - - -	<i>L. L. Burlingame</i> 34
The roots of <i>Lycopodium pithyoides</i> . Contributions from the Hull Botanical Laboratory. XCV (with plates V and VI and one figure) - - - - -	<i>Alma G. Stokey</i> 57
Alternation of generations and the morphology of the spore forms in rusts (with plate VII) - - - - -	<i>A. H. Christman</i> 81
Development of the walls in the proembryo of <i>Pinus Laricio</i> . Contributions from the Hull Botanical Laboratory. XCVI (with plates VIII and IX) - - - - -	<i>N. Johanna Kildahl</i> 102
Undescribed plants from Guatemala and other Central American republics. XIX - - - - -	<i>John Donnell Smith</i> 108
<i>Microcycas calocoma</i> . Contributions from the Hull Botanical Laboratory. XCVII (with plates XIII and fourteen figures) - - - - -	<i>Otis W. Caldwell</i> 118
Apogamy in <i>Nephrodium</i> . Contributions from the Hull Botanical Laboratory. XCVIII - - - - -	<i>Shigéo Yamanouchi</i> 142
The structure and relationship of the Potamogetonaceae and allied families (with plates XIV-XVIII and three figures) - - - - -	<i>Mintin Asbury Chrysler</i> 161
The male gametophyte of <i>Dacrydium</i> . Contributions from the Hull Botanical Laboratory. XCIX (with plate XIX) - - - - -	<i>Mary S. Young</i> 189
Bryological papers. I. The origin of air chambers. Contributions from the Hull Botanical Laboratory. C (with twenty-two figures)	
<i>Charles R. Barnes and W. J. G. Land</i> 197	
The development of the sporangium of <i>Lygodium</i> . Contributions from the Hull Botanical Laboratory. CI (with thirty-seven figures) - - - - -	<i>R. Binjord</i> 214
The Chrysanthemum ray blight (with seven figures)	
<i>F. L. Stevens</i> 241	
On the importance of physiologically balanced solutions for plants. II. Fresh-water and terrestrial plants (with seven figures) - - - - -	<i>W. J. V. Osterhout</i> 259

Fertilization and embryogeny in <i>Ephedra trijuga</i> . Contributions from the Hull Botanical Laboratory. CII (with plates XX-XXII) - - - - -	<i>W. J. G. Land</i> 273
The development of the seed in Pontederiaceae (with plate XXIII) - - - - -	<i>W. C. Coker</i> 293
The forest formations of Boulder County, Colorado (with twelve figures) - - - - -	<i>Robert T. Young</i> 321
Fertilization in <i>Cypripedium</i> . Contributions from the Hull Botanical Laboratory. CIII (with plates XXIV-XXVII) - - - - -	<i>Lula Pace</i> 353
Germination of seeds of water plants. Contributions from the Hull Botanical Laboratory. CIV - - - - -	<i>William Crocker</i> 375
On twin hybrids - - - - -	<i>Hugo de Vries</i> 401
A contribution toward the knowledge of the genus <i>Washingtonia</i> (with twelve figures) - - - - -	<i>S. B. Parish</i> 408
<i>Araucariopsis</i> , a new genus of Araucarians (with plates XXVIII-XXX) - - - - -	<i>Edward C. Jeffrey</i> 435
Differentiation of sporocarps in <i>Azolla</i> . Contributions from the Hull Botanical Laboratory. CV (with plates XXXI and XXXII) - - - - -	<i>Wanda M. Pfeiffer</i> 445
BRIEFER ARTICLES—	
The black-fruited <i>Crataegus</i> of western North America - - - - -	<i>C. S. Sargent</i> 64
Names of North American trees - - - - -	<i>C. S. Sargent</i> 225
A remarkable case of polyspermy in ferns (with one figure) - - - - -	<i>William L. Woodburn</i> 227
Some new Washington plants - - - - -	<i>H. H. Bartlett</i> 302
Some perplexities of the indexer - - - - -	<i>Mary A. Day</i> 304
Notes on two California <i>Nemophilas</i> - - - - -	<i>Harley P. Chandler</i> 381
An unusual method of vegetative reproduction in <i>Dionaea muscipula</i> (with one figure) - - - - -	<i>John W. Harshberger</i> 382
Branching sporangiophores of <i>Rhizopus</i> (with one figure) - - - - -	<i>LeRoy H. Harvey</i> 382
CURRENT LITERATURE - - - - -	67, 147, 228, 307, 384, 455
For titles of books reviewed see index under author's name and Reviews.	
Papers noticed in "Notes for Students" are indexed under author's name and subjects.	
NEWS - - - - -	79, 160, 240, 320, 400, 464

DATES OF PUBLICATION

No. 1, July 20; No. 2, August 16; No. 3, September 18; No. 4, October 19;
No. 5, November 16; No. 6, December 18.

ERRATA

Vol. 43: for errata see note 44:80.

P. 33, for last two lines read

Rhexia mariana

FIG. 16.—Transverse section of ventral epidermis of leaf. $\times 320$.

P. 99, citation 6, for uredospores read uredospore.

P. 151, line 2 from bottom, for Immunetäts read Immunitäts.

P. 264, first item under Table V, for Nacl read NaCl.

P. 312, footnote 5, for Bieträge read Beiträge.

P. 313, line 1 from below, footnotes, for 197 read 177.

P. 397, footnote 23, for Invgarson read Ingvarson.

P. 399, line 2 and footnote 33, for PRIESTLY read PRIESTLEY.
